

PHASE TWO™

Infrastructure Planning & Management

LOAD MAPPING · ACCOUNTABILITY MAPPING
CAPACITY PLANNING · INTEGRATED ACTION PLAN

INTELLECTUAL PROPERTY LICENSE & TERMS OF USE

© 2026 The Co.LLab™ Building Leadership Infrastructure™. All Rights Reserved.

1. THE CO.LLAB IP™

The Co.LLab IP™ refers collectively to the original intellectual property created and developed for The Co.LLab™ Building Leadership Infrastructure™, including The .LLab™ product line and all associated frameworks, methodologies, models, systems, tools, templates, assessments, content, terminology, designs, processes, and materials. The Co.LLab IP™ is proprietary intellectual property created and controlled by The Co.LLab™ and its owner.

2. LICENSE TO USE

Purchase of The Co.LLab IP™ grants the user a limited, non-exclusive, non-transferable, non-sublicensable license to use the applicable IP to build, develop, strengthen, and sustain leadership infrastructure within the user's own organization. This is a right of use only — it does not transfer ownership, authorship, copyright, or trademark rights.

3. WORKING COPIES

The user is expressly authorized to create and maintain working copies — digital, printed, or otherwise — solely for authorized personal or organizational use, and may complete, annotate, and customize those copies for their own needs.

4. AUTHORIZED USE

The Co.LLab IP™ may be applied to leadership development, organizational planning, strategy, implementation, and related activities. Users retain ownership of their own original work product; the underlying frameworks remain proprietary to The Co.LLab™.

5. RESTRICTIONS

- Claim ownership or authorship of The Co.LLab IP™
- Sell, license, sublicense, distribute, or provide it to an unauthorized third party
- Repackage or present it as your own proprietary framework or product
- Commercialize it or create a competing product substantially based upon it
- Remove or alter proprietary, copyright, or trademark notices

6 — 7. COLLABORATION & RESERVATION OF RIGHTS

External, public, commercial, or third-party use requires prior written authorization from The Co.LLab™. All rights not expressly granted are reserved by the intellectual-property owner. No purchase or use of The Co.LLab IP™ constitutes a transfer of ownership.

THE CO.LLAB IP™ REMAINS PROPRIETARY TO THE CO.LLAB™ AND ITS OWNER.
THE USER RECEIVES A LICENSE TO USE IT — NOT OWNERSHIP OF IT.

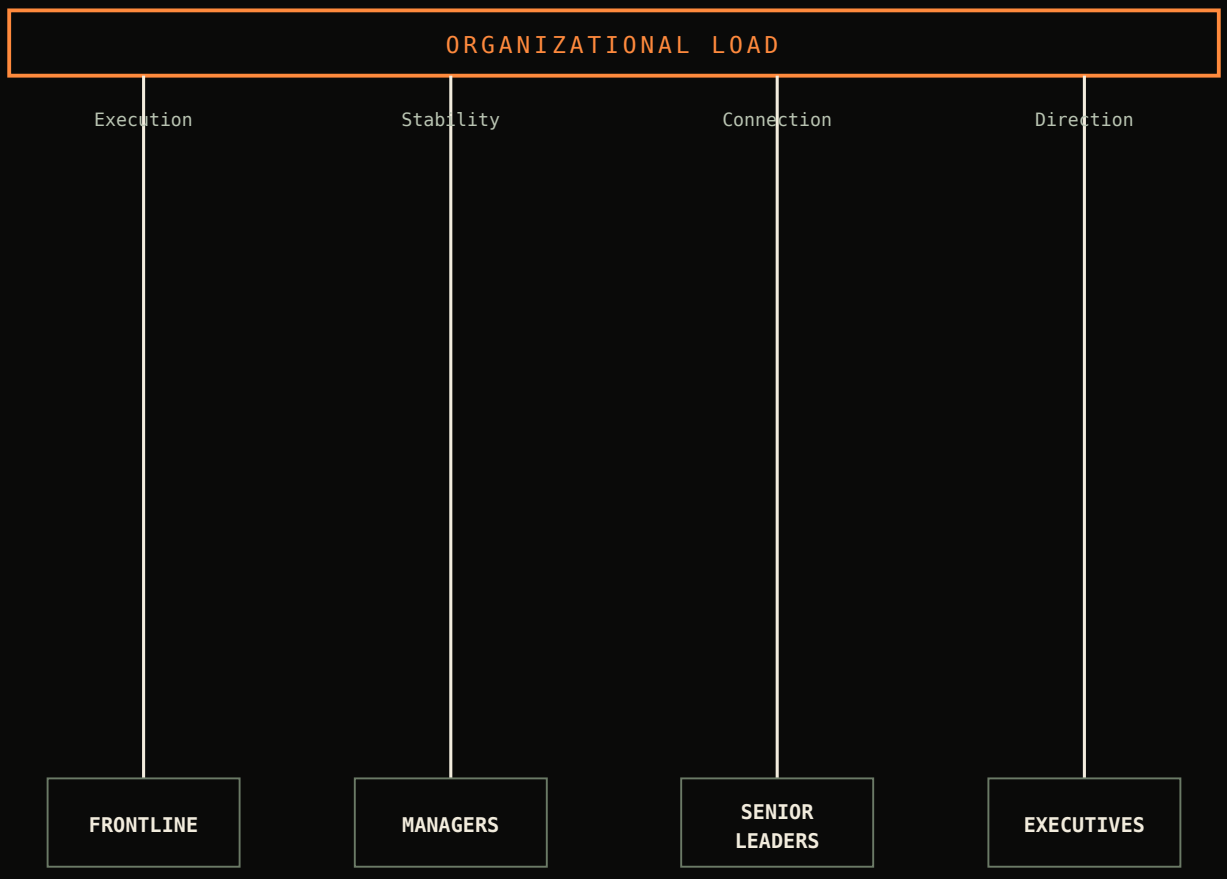

02 / INFRASTRUCTURE PLANNING

PHASE TWO

Design precedes scale. The Architect drafts the framework now so the structure can grow without cracking later.

FIG. 02 — LOAD DISTRIBUTION

WHO CARRIES WHAT WEIGHT

Every column bears real weight. Map the load before it finds the weakest column on its own — that's how structures fail.

INFRASTRUCTURE PLANNING BLUEPRINT™

Consolidates load mapping, accountability assignments, and capacity planning into a single actionable framework — ensuring operational efficiency, clarity of responsibility, and scalability of resources across the organization.

WHAT THIS PHASE BUILDS

- Strategic priority mapping
- Role clarity
- Accountability structures
- Delegation systems
- Performance architecture

THE FOUR WORKING PARTS

- Load Mapping — where the weight actually sits
- Accountability Mapping — who owns what, and who escalates to whom
- Capacity Planning — sustainable workload vs. actual workload
- Integrated Action Plan — turning the map into next steps

> **GUIDING PRINCIPLE**
> Trust Your Team™ — this phase only works when it's built with the people who carry the load, not just about them.

01 — LOAD MAPPING

WHERE THE WEIGHT SITS

Identify organizational tasks, processes, and responsibilities to understand workload distribution and system demands.

1 Document all major tasks and processes, including who is responsible for each.

2 Note frequency, priority, and estimated time required for completion.

3 Highlight high-load areas that may create bottlenecks — and identify roles or teams under excessive pressure.

4 Use this information to plan task reallocation or additional support.

REFLECTION

Where is the organization one absence away from a bottleneck?

“

It does not matter how slowly you go, as long as you do not stop.

— CONFUCIUS, PHILOSOPHER

02 — ACCOUNTABILITY MAPPING

OWNERSHIP, OVERSIGHT & ESCALATION

Clarify ownership, oversight, and escalation for all tasks and processes — documentation reduces ambiguity, and ambiguity is where accountability quietly dies.

1 Assign a primary owner for each critical task.

2 Identify accountable parties responsible for oversight and validation.

3 Establish escalation paths for unresolved issues or exceptions.

REFLECTION

Where does ownership currently live only in someone's head — not on paper?

03 — CAPACITY PLANNING

SUSTAINABLE VS. ACTUAL LOAD

Assess team and resource capacity to ensure sustainable workloads and operational efficiency.

1 Estimate current capacity and compare it with actual workloads.

2 Identify overextended roles or teams — and underutilized capacity.

3 Recommend actions: training, hiring, or workflow adjustments to balance workloads.

REFLECTION

If your best person left tomorrow, what would break first?

APPLIED ASSIGNMENT & DELIVERABLE

YOUR INTEGRATED ACTION PLAN

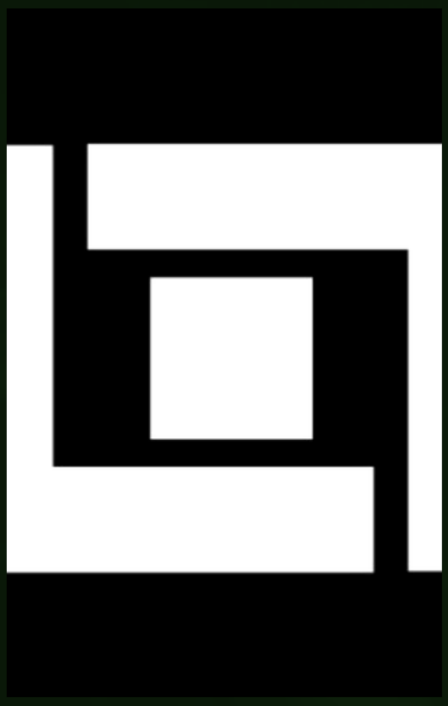

Combine insights from load mapping, accountability, and capacity planning to define actionable steps.

1 Prioritize actions based on impact and feasibility.

2 Assign a responsible party and define a timeline for each action.

3 Identify required resources and success metrics.

> **IMPLEMENTATION NOTE**
> Review this blueprint quarterly or after major organizational change. Use it to guide leadership discussions, workload balancing, and risk mitigation — not as a one-time exercise.

THE CO.LLAB™

BUILDING LEADERSHIP INFRASTRUCTURE™

GLOSSARY

Glossary Of **Terms.**

Definitions of the terms used across The Co.LLab IP™, in alphabetical order.

Co.LLab IP™ — The proprietary frameworks, tools, models, and materials of The Co.LLab™, owned by Ashley E. Clasby and licensed, never sold, to users.

Foundations (Phase I) — The phase that defines what an organization stands on: vision, values, identity, and strengths.

Infrastructure — The structures, systems, and practices that let an organization perform consistently, independent of any one person.

Infrastructure Planning & Management (Phase II) — The phase that decides what to build and how it connects: priorities, decision rights, and ownership.

Internal Operating Systems (Phase III) — The phase that builds repeatable rhythms, standards, and practices into daily operations.

Leadership Infrastructure™ — Leadership made structural: captured, documented, and embedded so it outlasts the individuals who hold it.

Legacy — What an organization builds that continues after its founders and leaders step away.

License — A limited right to use Co.LLab IP™ for internal purposes. A license grants use, not ownership.

Non-Negotiable — A commitment an organization will not trade away, regardless of financial or competitive pressure.

Omnidirectional Enterprise™ — An ecosystem without hierarchy, in which value moves between companies, people, creators, and communities in every direction.

Preservation (Phase IV) — The phase that ensures knowledge, culture, and intent survive leadership transitions.

Stakeholder — Any person or group the organization serves or depends on: employees, customers, community, partners, and future leaders.

Stewardship — The shared responsibility to protect and advance an organization’s founding intent.

Succession — The planned transfer of roles, authority, and knowledge from one leader to the next.

The IV Phases™ — The four-phase Co.LLab™ model: Foundations, Infrastructure Planning & Management, Internal Operating Systems, and Preservation.

Working Copy — A user’s completed or annotated copy of a Co.LLab IP™ product, made for authorized internal use.

APPENDIX A

The IV Phases™ **Reference Model.**

PHASE	PURPOSE	GUIDING QUESTION
I · Foundations	Define what the organization stands on.	What should never be lost as we grow?
II · Infrastructure Planning & Management	Decide what to build and how it connects.	What depends on a person that should belong to the organization?
III · Internal Operating Systems	Build the systems that make it run.	How do we make what matters part of how we operate?
IV · Preservation	Make it last beyond any one person.	What must exist for what we built to continue?
