WELCOME — A .LLAB™ LIBRARY CARD GUIDE

.LLab Library **Card**™

Founding access to the digital library — the curated resource stream and infrastructure roadmap underneath every .LLab™ product.

PHASE
Digital Library Access

INVESTMENT
$10/mo · $100/yr (Founding Rate)

WELCOME

The **on-ramp** into The .LLab™.

The Library Card is the lightest-weight way into the ecosystem — a founding-rate subscription to the digital library that sits underneath everything else The Co.LLab™ builds. It's for anyone who wants ongoing access to the resource stream without committing to full Membership yet.

> **WHAT'S INCLUDED**
> Your **.LLab Infrastructure Roadmap™** — a guided map of the full IV Phases product catalog — plus the curated resource stream added to the library over time, all unlocked in your account.

How to access it

Sign in at **wearethellab.netlify.app/pages/account.html** with the access link from your confirmation, or the email you purchased with. Your library items appear there, ready to download.

LIBRARY CARD VS. MEMBERSHIP

What's **different.**

The Library Card and full Membership share the same account and library — they just unlock different amounts of the ecosystem.

	LIBRARY CARD	MEMBERSHIP
Infrastructure Roadmap™	Included	Included
Curated resource stream	Included	Included
Full IV Phases product catalog	Purchased individually	Fully unlocked
Price	$10/mo · $100/yr (founding)	$150/mo · $1,500/yr

You can upgrade to full Membership at any time — your account and everything already in your library carries over automatically.

GETTING THE MOST FROM IT

Start with the **Roadmap.**

Your **.LLab Infrastructure Roadmap™** is the fastest way to understand what the rest of the ecosystem offers — the full IV Phases catalog, how the four phases connect, and which product to consider first based on what you're actually facing right now.

WHAT MADE YOU CURIOUS ABOUT THE .LLAB™ IN THE FIRST PLACE?

> *Founding-rate members are the reason this ecosystem exists in its current form — thank you for being part of the earliest cohort.*
