Capture, Embed, Transfer, Sustain.

The four tests every lasting piece of infrastructure has to pass.

CAPTURE Whether what matters is actually recorded anywhere durable.	EMBED Whether it's built into systems, not just stored in a file.
TRANSFER Whether someone else could actually pick it up and continue it.	SUSTAIN Whether it would keep running, or quietly stop, without you.

Score each honestly as it functions today — not as it's designed to function.

Circle One Number Per Dimension.
