GLOSSARY

Glossary Of **Terms.**

Definitions of the terms used across The Co.LLab IP™, in alphabetical order.

Co.LLab IP™ — The proprietary frameworks, tools, models, and materials of The Co.LLab™, owned by Ashley E. Clasby and licensed, never sold, to users.

Foundations (Phase I) — The phase that defines what an organization stands on: vision, values, identity, and strengths.

Infrastructure — The structures, systems, and practices that let an organization perform consistently, independent of any one person.

Infrastructure Planning & Management (Phase II) — The phase that decides what to build and how it connects: priorities, decision rights, and ownership.

Internal Operating Systems (Phase III) — The phase that builds repeatable rhythms, standards, and practices into daily operations.

Leadership Infrastructure™ — Leadership made structural: captured, documented, and embedded so it outlasts the individuals who hold it.

Legacy — What an organization builds that continues after its founders and leaders step away.

License — A limited right to use Co.LLab IP™ for internal purposes. A license grants use, not ownership.

Non-Negotiable — A commitment an organization will not trade away, regardless of financial or competitive pressure.

Omnidirectional Enterprise™ — An ecosystem without hierarchy, in which value moves between companies, people, creators, and communities in every direction.

Preservation (Phase IV) — The phase that ensures knowledge, culture, and intent survive leadership transitions.

Stakeholder — Any person or group the organization serves or depends on: employees, customers, community, partners, and future leaders.

Stewardship — The shared responsibility to protect and advance an organization's founding intent.

Succession — The planned transfer of roles, authority, and knowledge from one leader to the next.

The IV Phases™ — The four-phase Co.LLab™ model: Foundations, Infrastructure Planning & Management, Internal Operating Systems, and Preservation.

Working Copy — A user's completed or annotated copy of a Co.LLab IP™ product, made for authorized internal use.

II · Infrastructure Planning & Management	Decide what to build and how it connects.	What depends on a person that should belong to the organization?
III · Internal Operating Systems	Build the systems that make it run.	How do we make what matters part of how we operate?
