01 · WHY THIS MATTERS

Foundations Aren't Assumed. They're Audited.

Most leadership foundations are half-built and never checked. This audit checks them — quickly, and honestly.

ASSUMED TO BE TRUE

- Values are “known” but never written down
- Priorities live in your head, not shared
- Consistency depends on mood, not a system

ACTUALLY IN PLACE

- Values are stated in one plain sentence
- Priorities are legible to people around you
- At least one real system carries the load

This checklist is a fast way to tell which side you're actually on.

02 · THE CHECKLIST

Check What's True Right Now.

- [ ] I can name my core values in one sentence, without notes.
- [ ] My team or collaborators could describe my priorities the same way I would.
- [ ] I have a clear picture of what I'm responsible for versus what I'm not.
- [ ] I know which relationships and structures I'm currently leaning on most.
- [ ] I've written down what "working well" actually looks like for me.
- [ ] I have at least one system — not just a habit — that keeps me consistent.
- [ ] I know where my leadership infrastructure is thinnest right now.
- [ ] I've told at least one other person what I'm building.

Foundations (Phase I) — The phase that defines what an organization stands on: vision, values, identity, and strengths.

Infrastructure — The structures, systems, and practices that let an organization perform consistently, independent of any one person.

Leadership Infrastructure™ — Leadership made structural: captured, documented, and embedded so it outlasts the individuals who hold it.

Legacy — What an organization builds that continues after its founders and leaders step away.

License — A limited right to use Co.LLab IP™ for internal purposes. A license grants use, not ownership.

Non-Negotiable — A commitment an organization will not trade away, regardless of financial or competitive pressure.

I · Foundations	Define what the organization stands on.	What should never be lost as we grow?
II · Infrastructure Planning & Management	Decide what to build and how it connects.	What depends on a person that should belong to the organization?
III · Internal Operating Systems	Build the systems that make it run.	How do we make what matters part of how we operate?
IV · Preservation	Make it last beyond any one person.	What must exist for what we built to continue?
